

## SPORTS AND RECREATION

### AQUATIC CENTRE, WHAKATANE

Located adjacent to, and complementing, the existing outdoor pool, the new indoor Aquatic Centre, completed in 2001, houses a seven-lane, 25m, deep-end lap pool, learners' and toddlers' pools, spa pools and a hydro-slide tower with associated exit chutes. Other facilities include change rooms, clubrooms, a toddlers' play area and staff and service areas.

Surrounded by mature trees and not easily visible inside the town's Rex Morpeth Park, the building's curved roof form is intended to signal 'wave', and give the building a recognizable image.
